Consumer Notes:

For all of you who have been screaming for Sailor Moon T-shirts, here they are (maybe they're a little late, but what are you going to do). Probably the most interesting thing is Dirty Pair Flash, the follow-on series to the often mentioned Dirty Pair. While there is a "Kei" and a "Yuri" here, they bear no resemblance whatsoever to the previous versions. It's still pretty cool, though. Also of note is the return of the first Slayers TV series episodes from CPM. These directly follow the earlier releases, and the company is committed to releasing the rest of the first TV series. Finally, we get the third Pretty Sammy movie and Tylor 5!

JEFF'S PICK(S) OF THE MONTH

Unlike last month, this time things are pretty clear cut: Slayers 5 (which I'm very happy to see more of) and the fifth volume of Tylor! If you don't have a problem with buying a book you can't read, I'd also highly recommend that new Satoshi Urushihara artbook "Venus." One note of caution, though ... like the "Cel Works" book before it, this is most assuredly an ADULT book!
